LEGS: ATTACHED

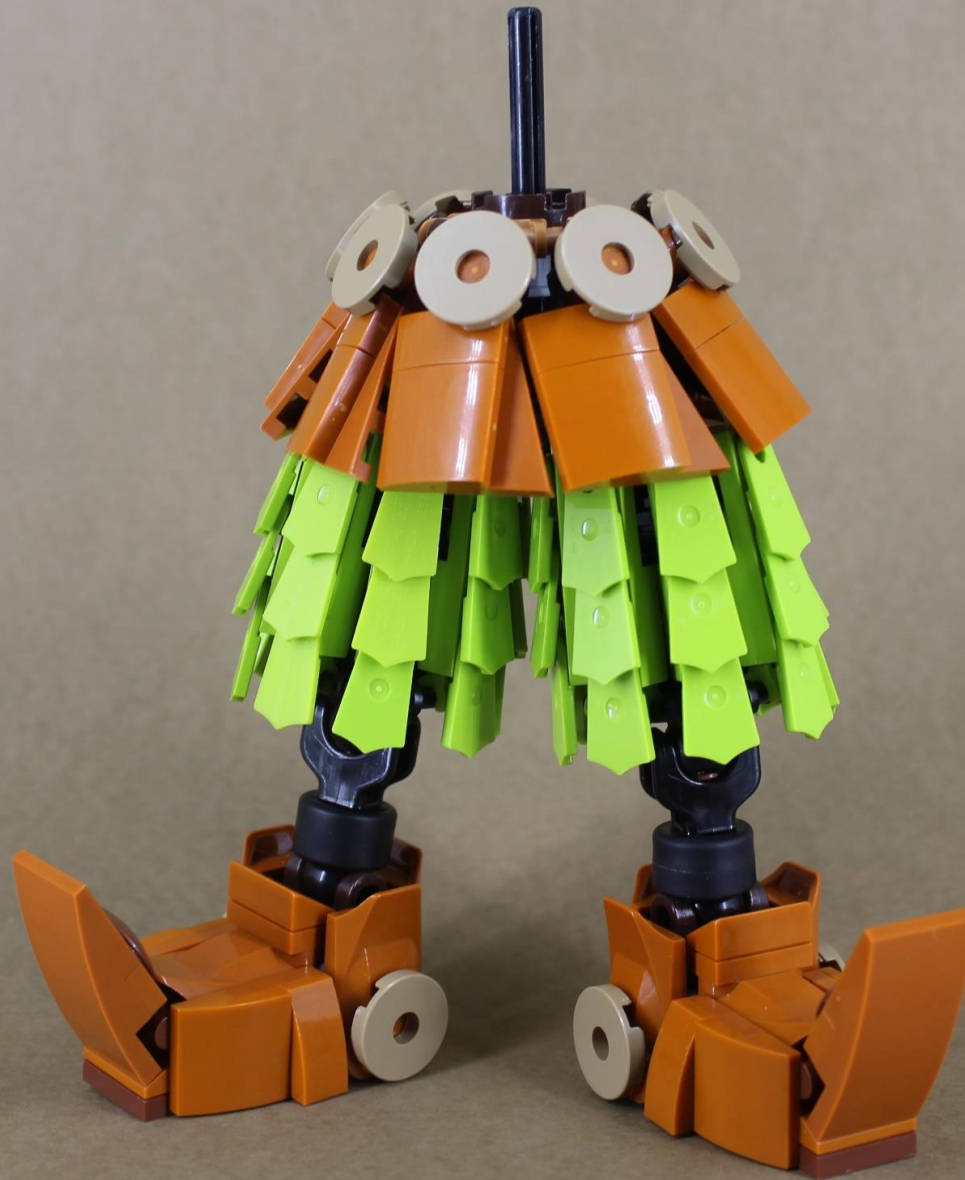

ROTATE HIPS INWARD FOR BEST
ALIGNMENT AND TO AVOID
COLLISION WITH AXLE

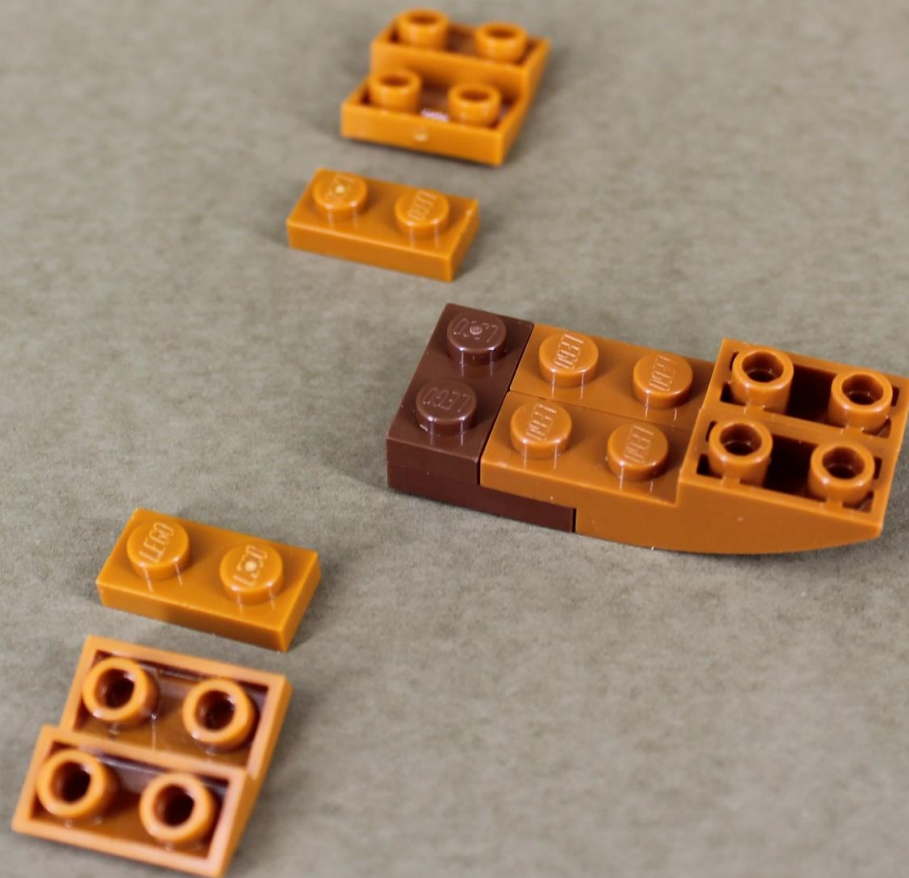

The image shows a close-up of a LEGO Technic assembly. A central black axle passes through a black cross-axle connector. Below the connector are two black curved pins, each with a black ball joint. These pins are connected to green Technic beams. Red curved arrows point from the text towards the green beams, indicating they should be rotated inward. A red circle highlights the gap between the green beams and the central axle.

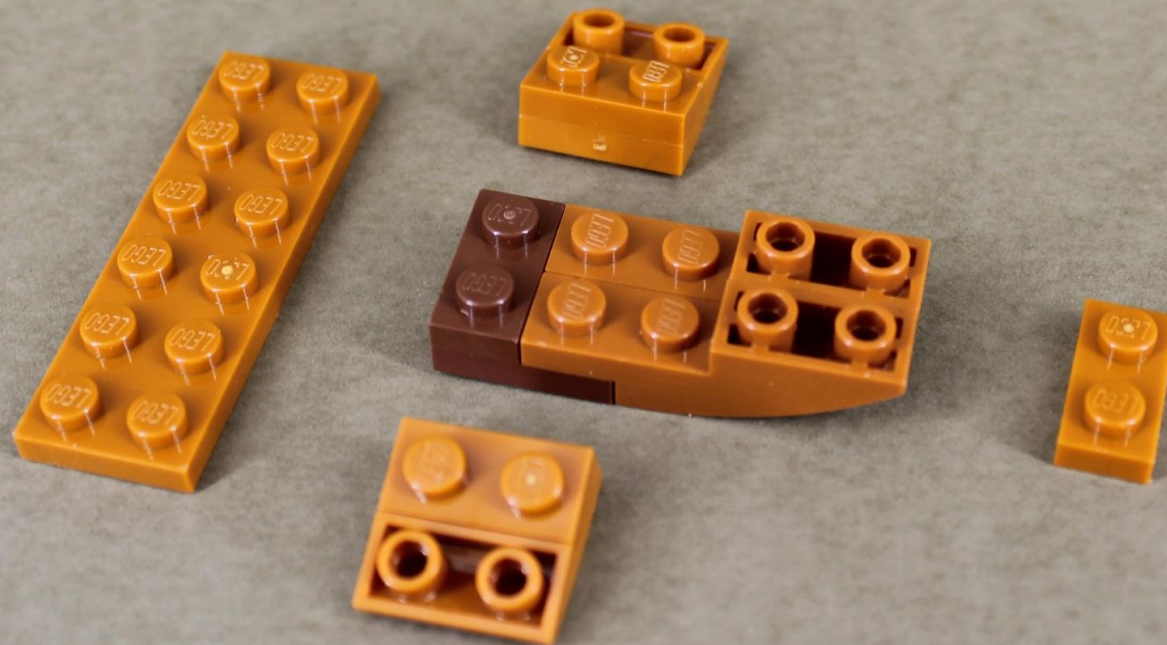

GENTLY LOWER THE FLAPS OF THE SKIRT

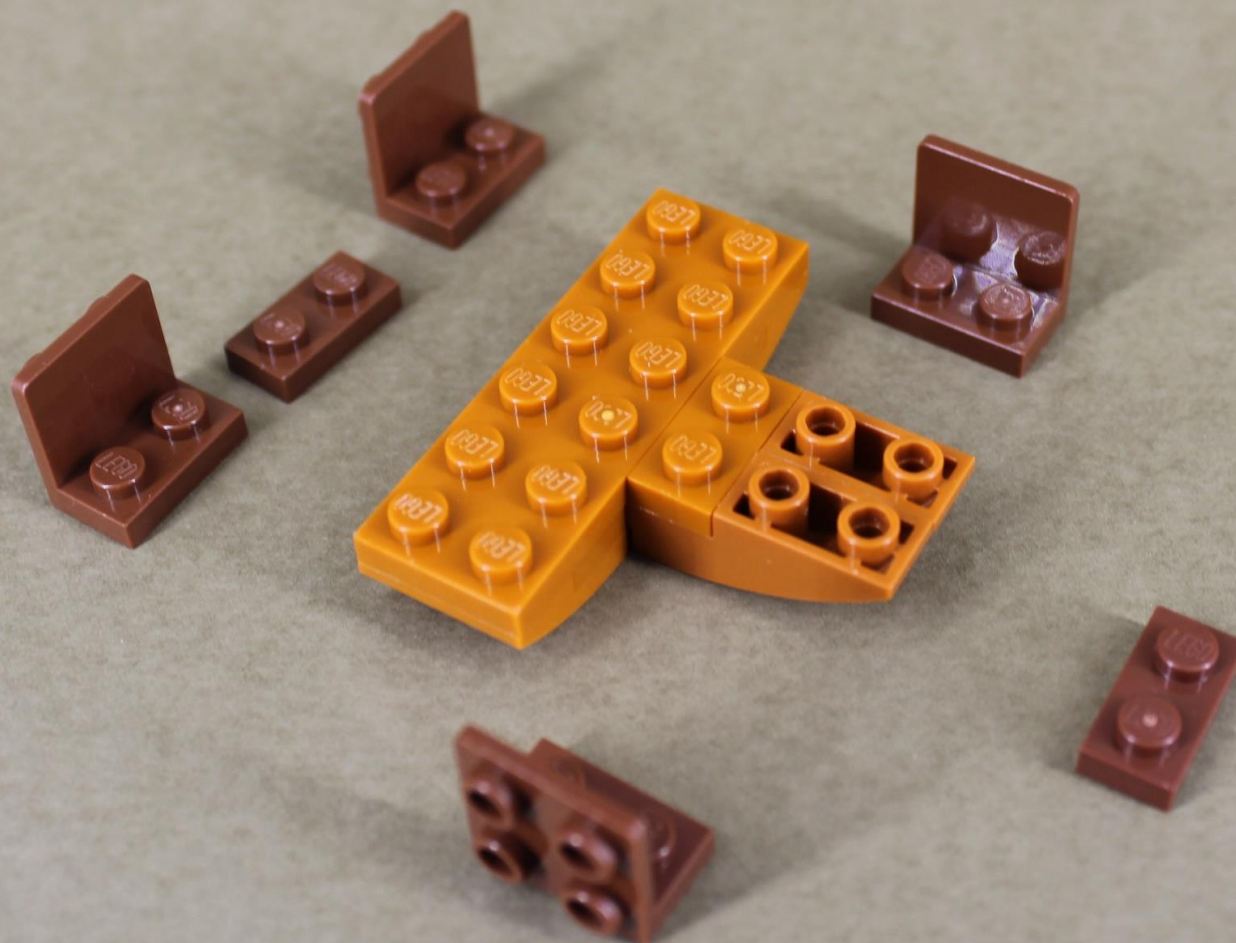

[illegible]

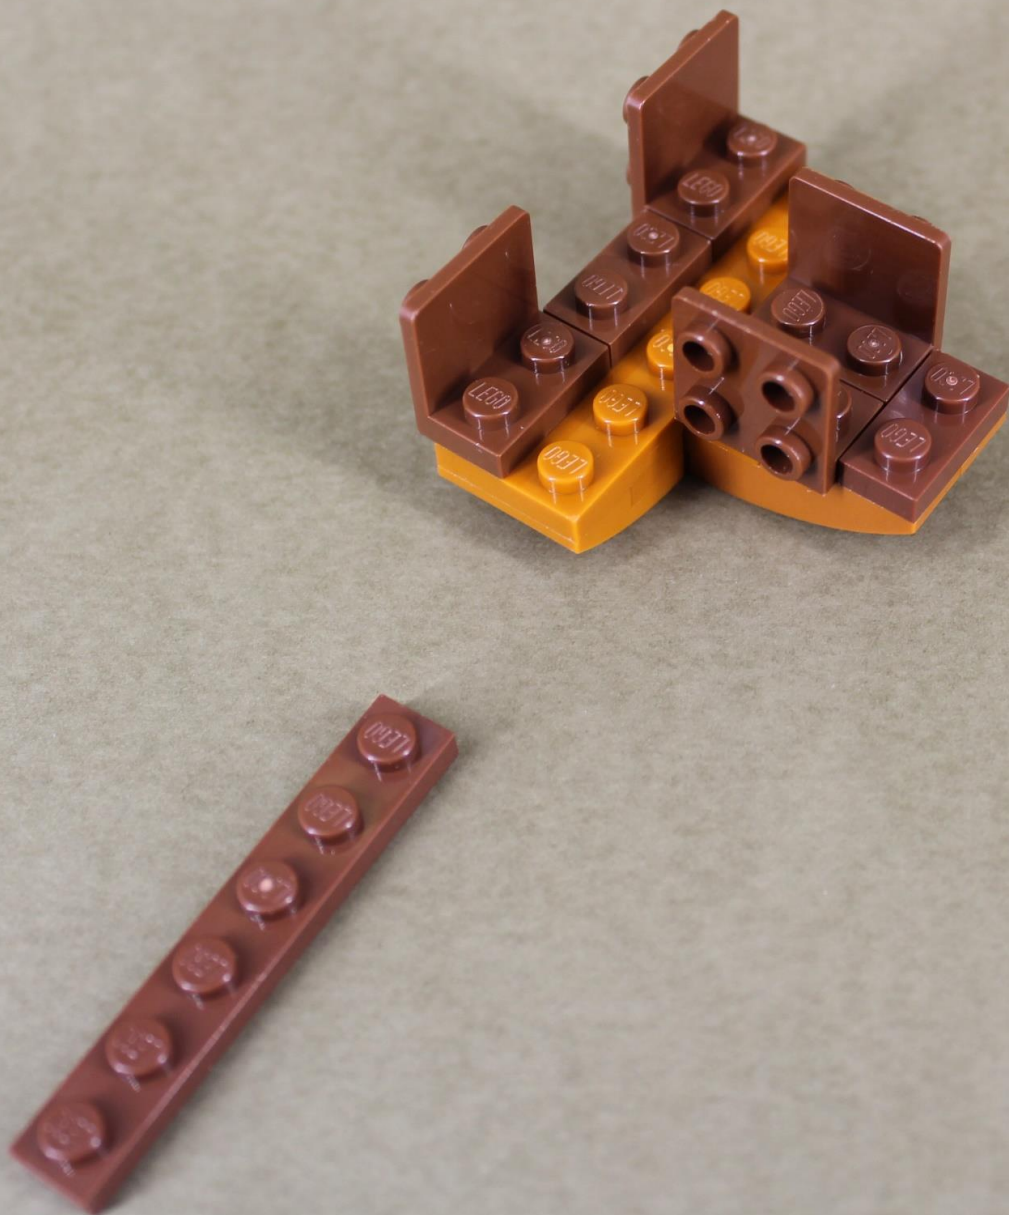

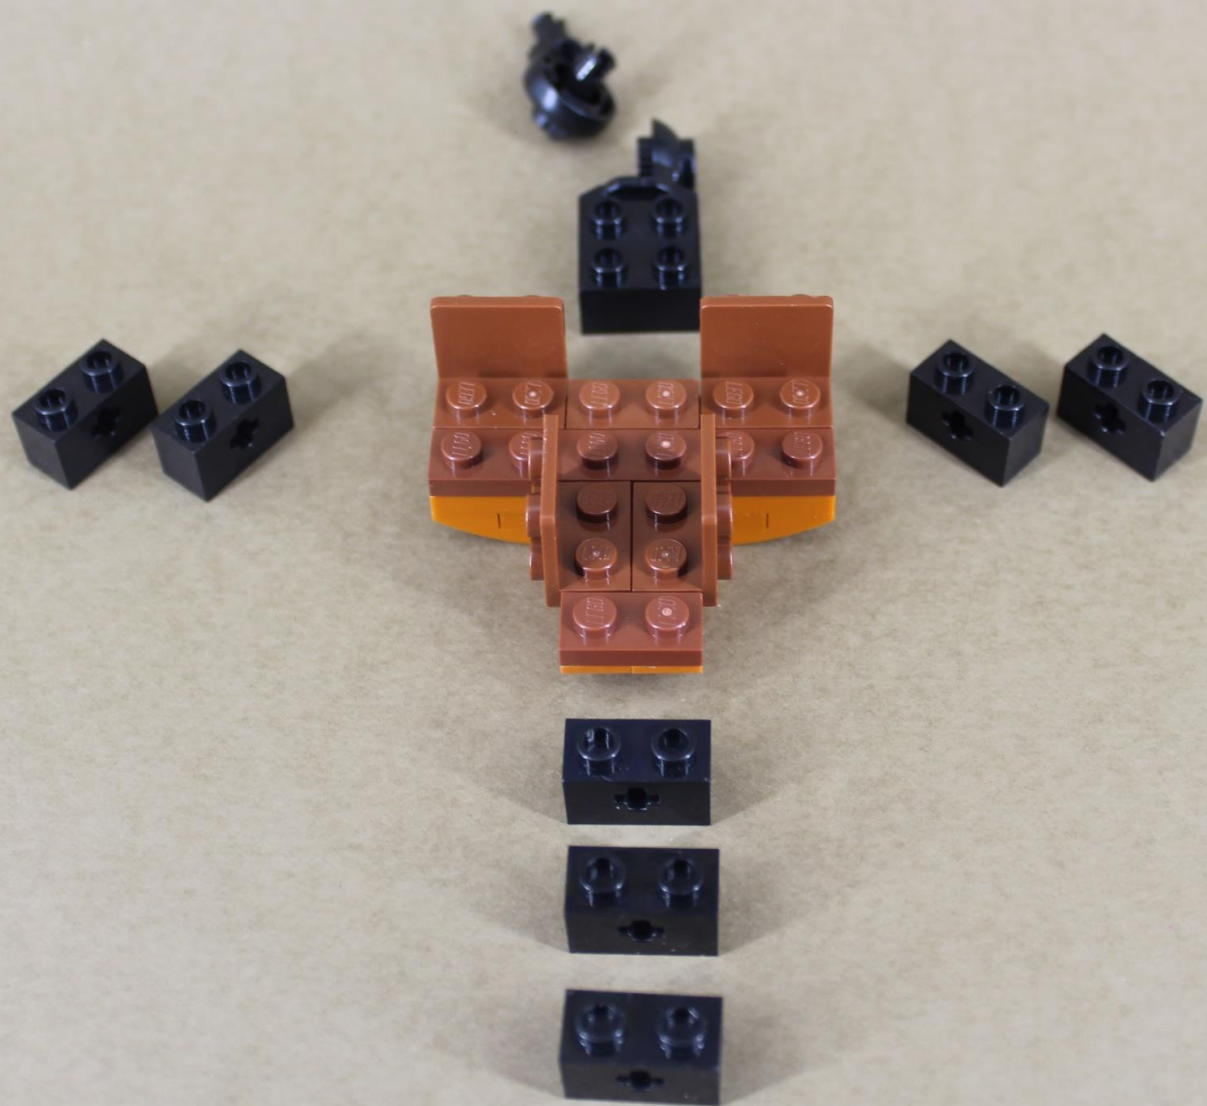

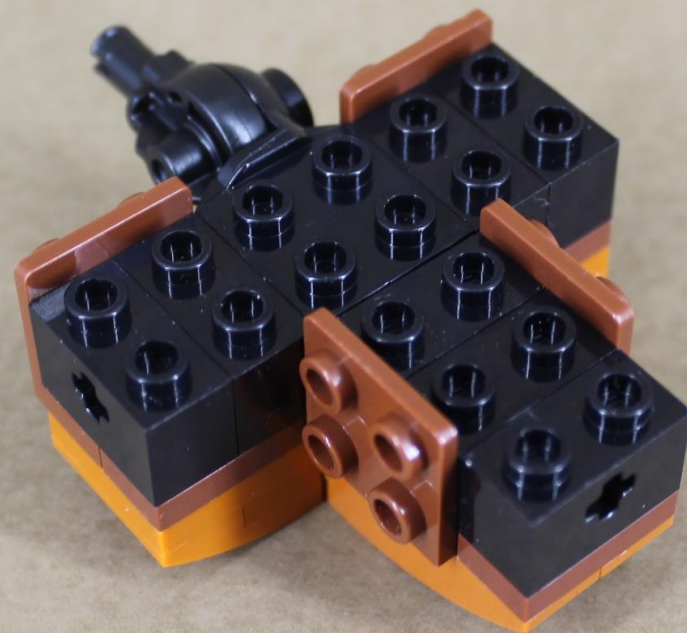

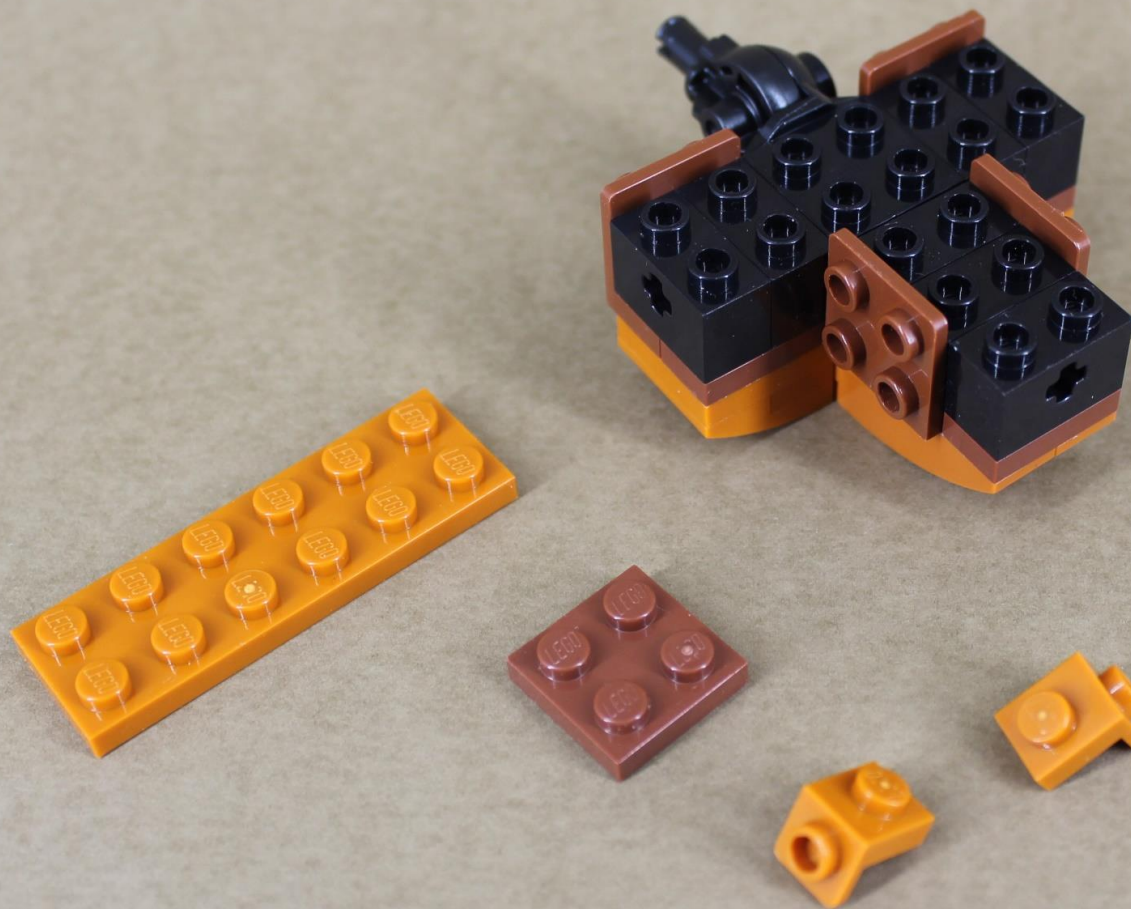

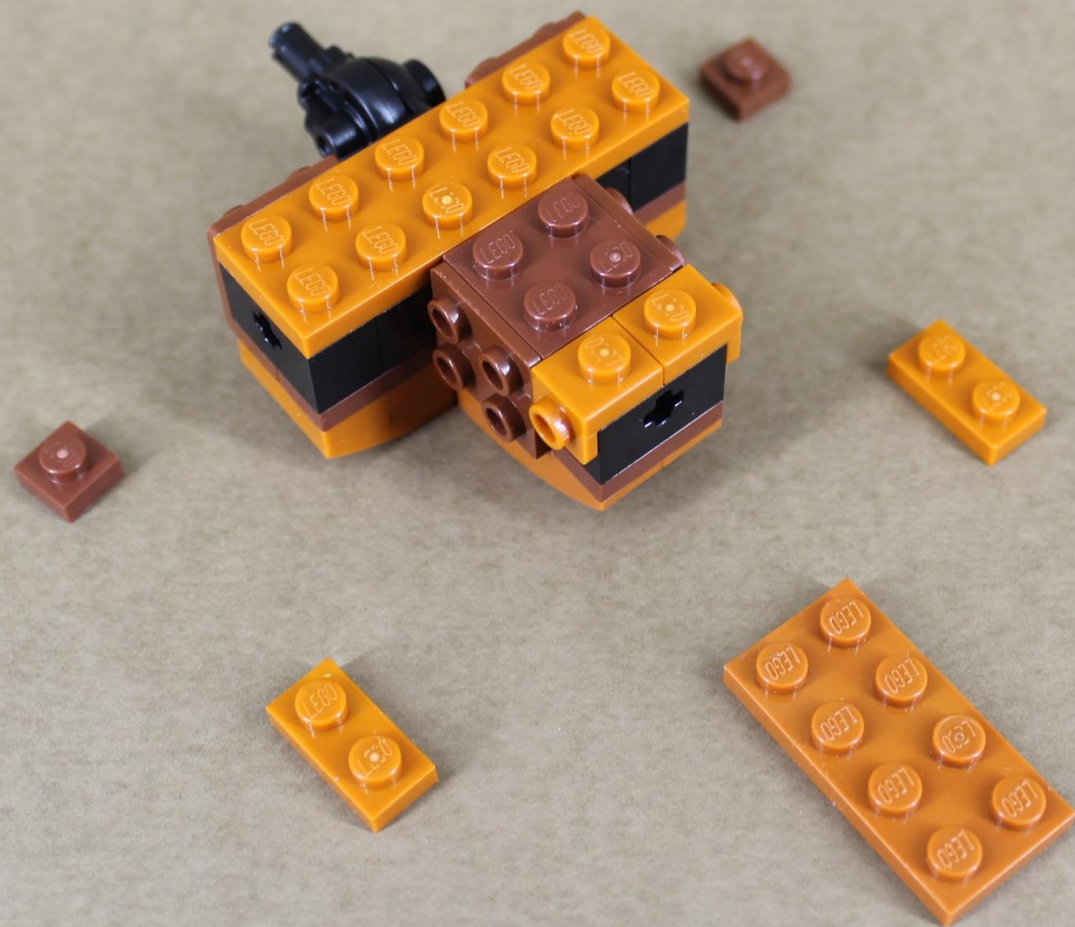

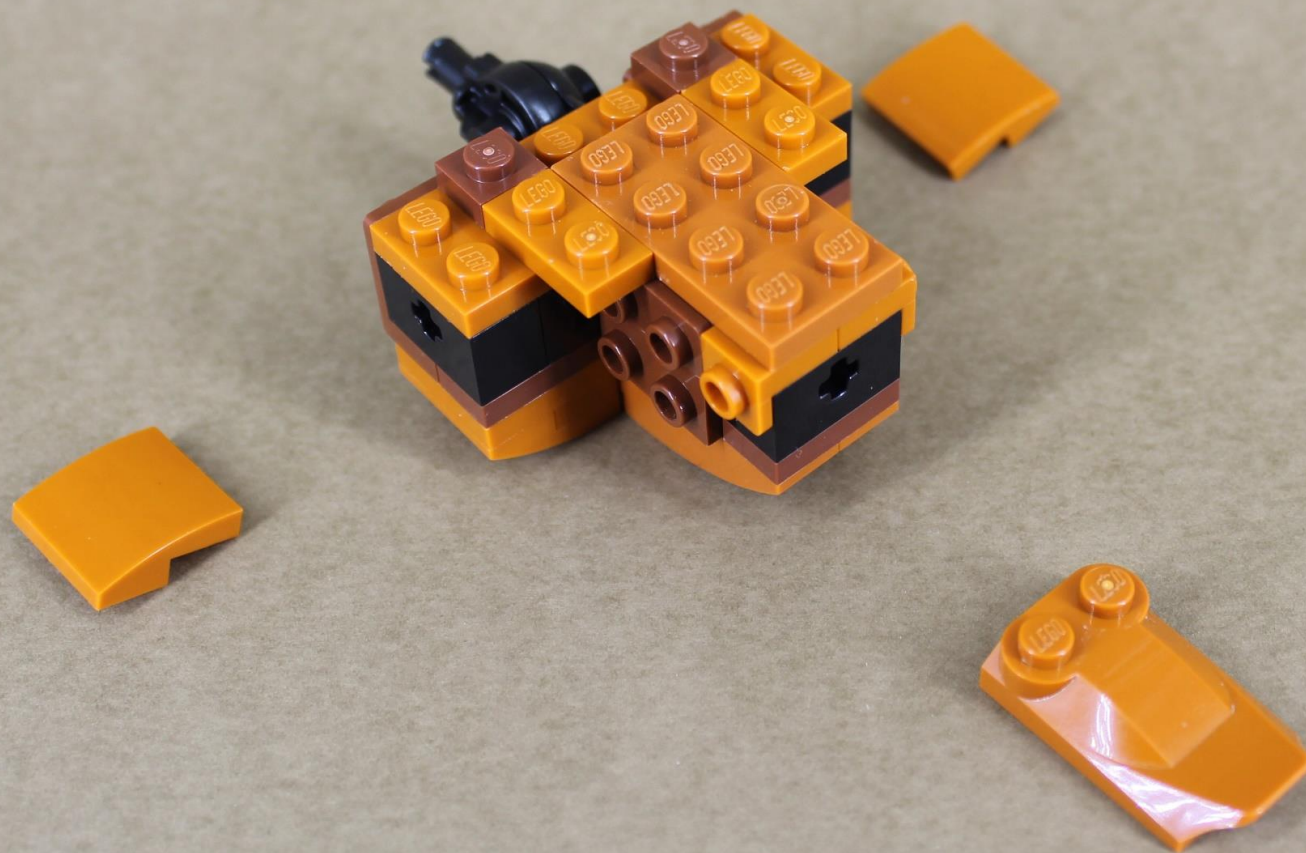

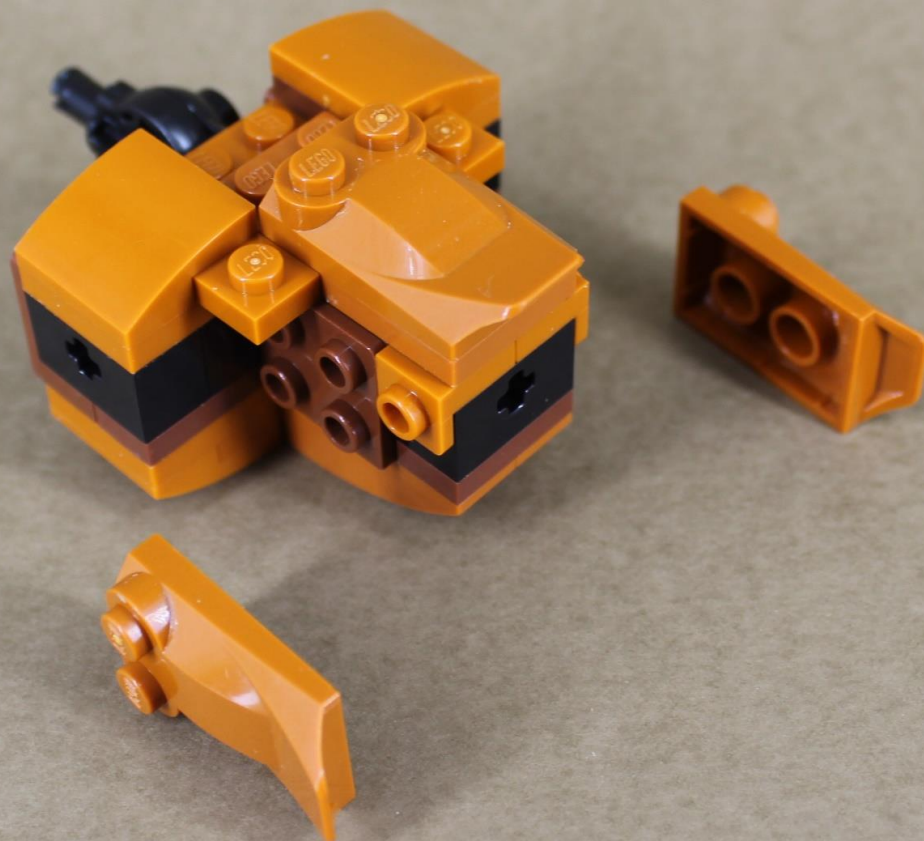

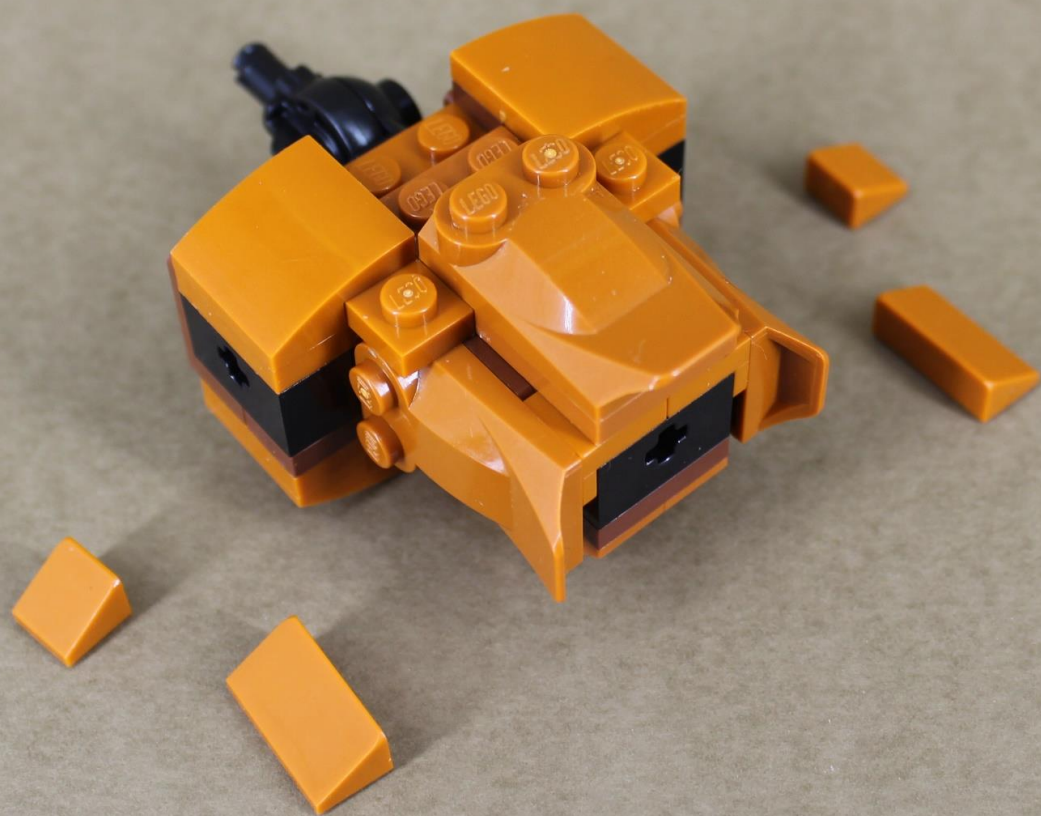

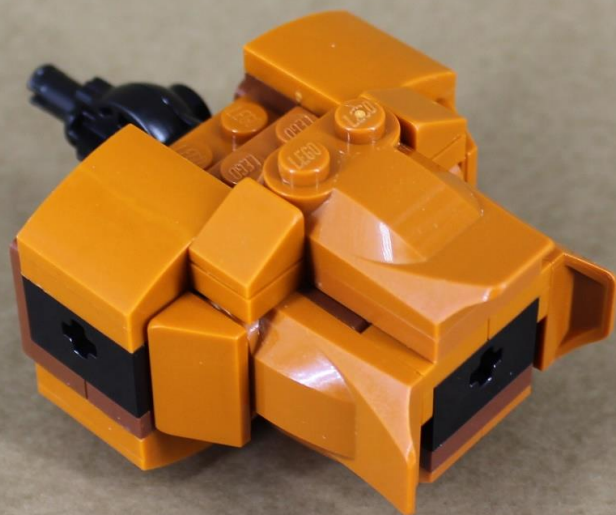

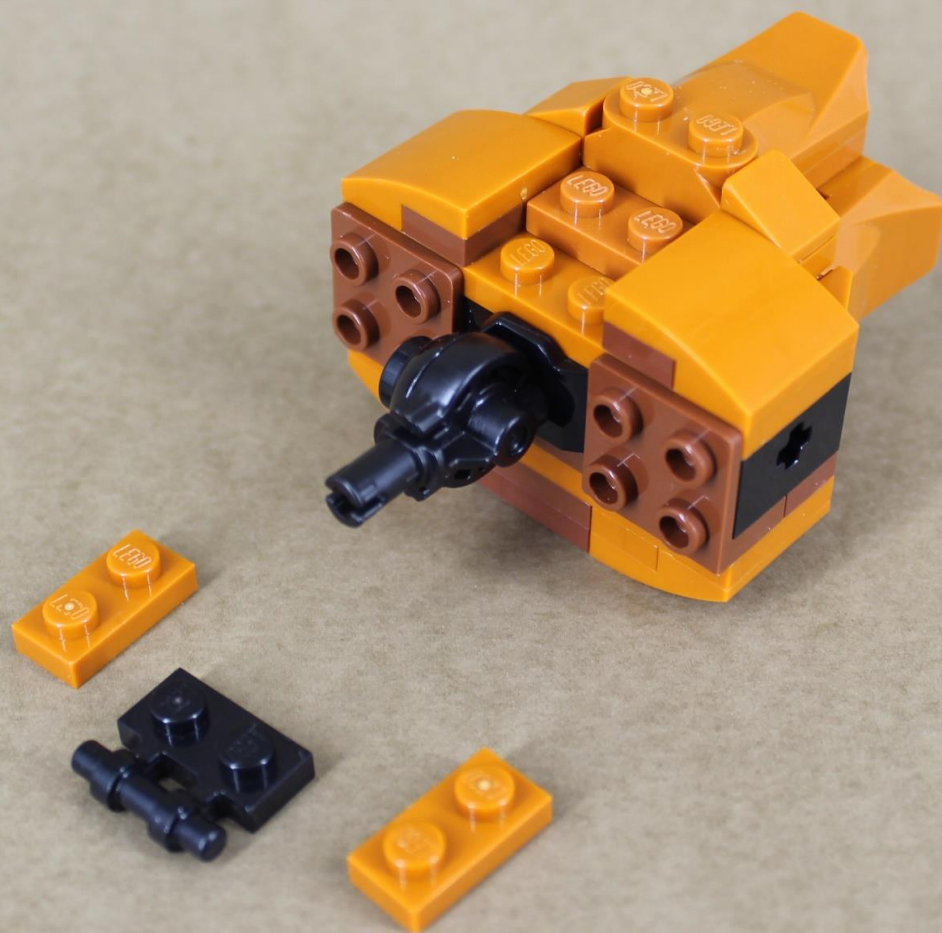

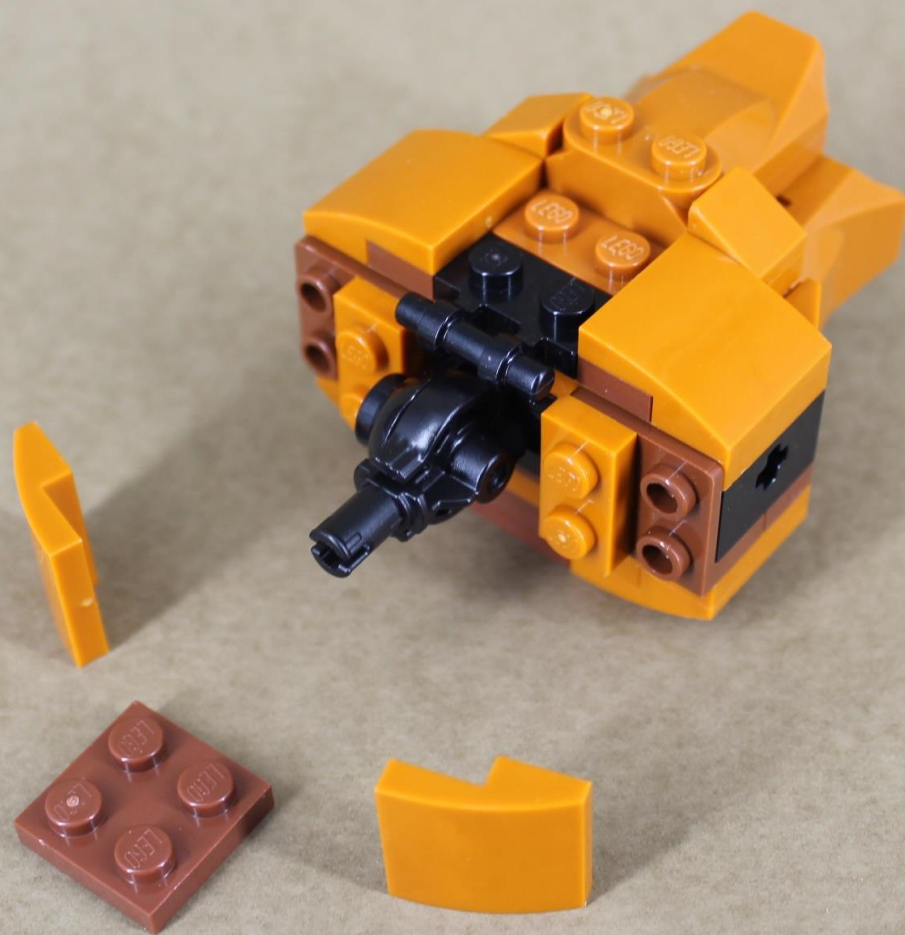

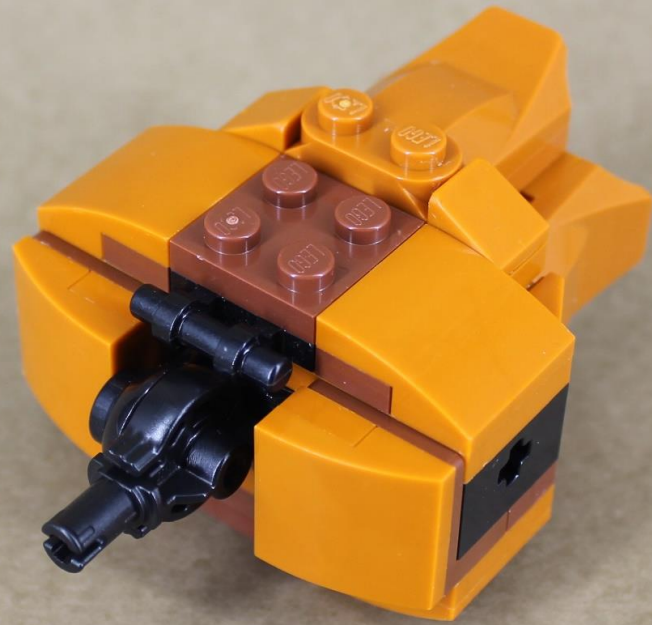

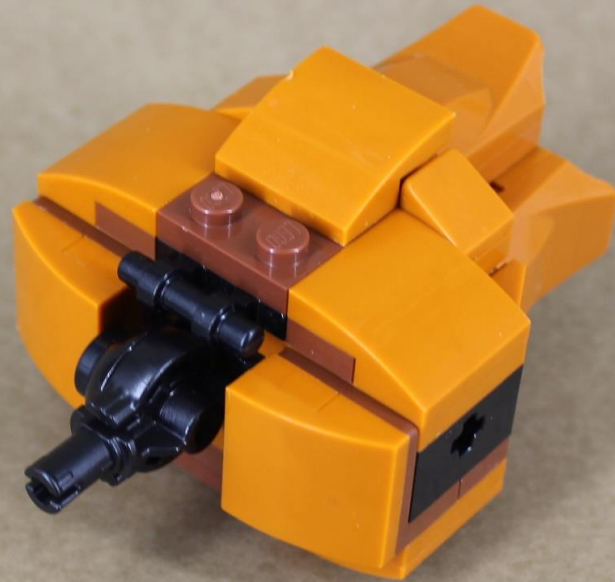

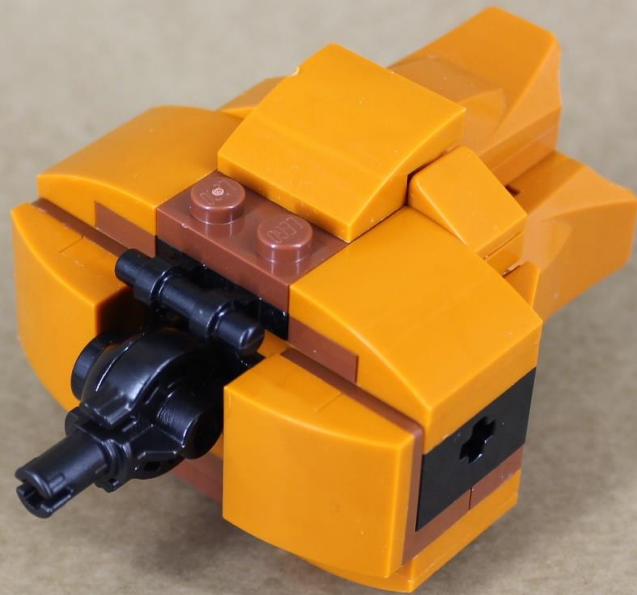

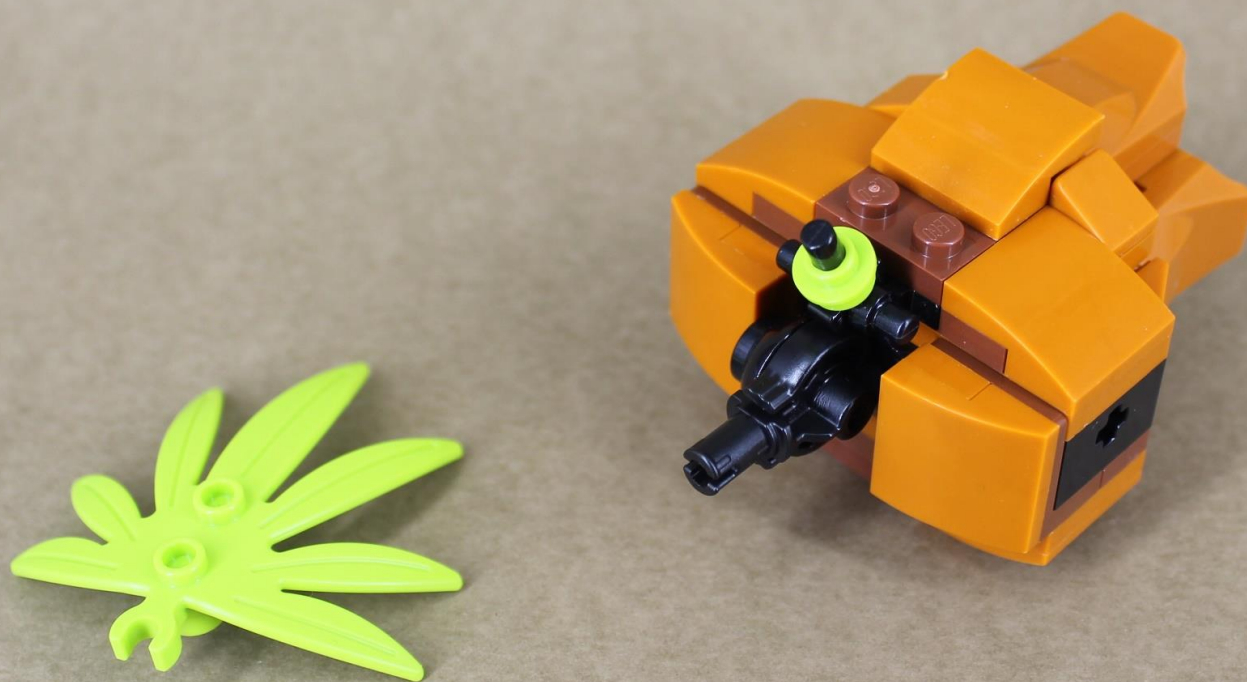

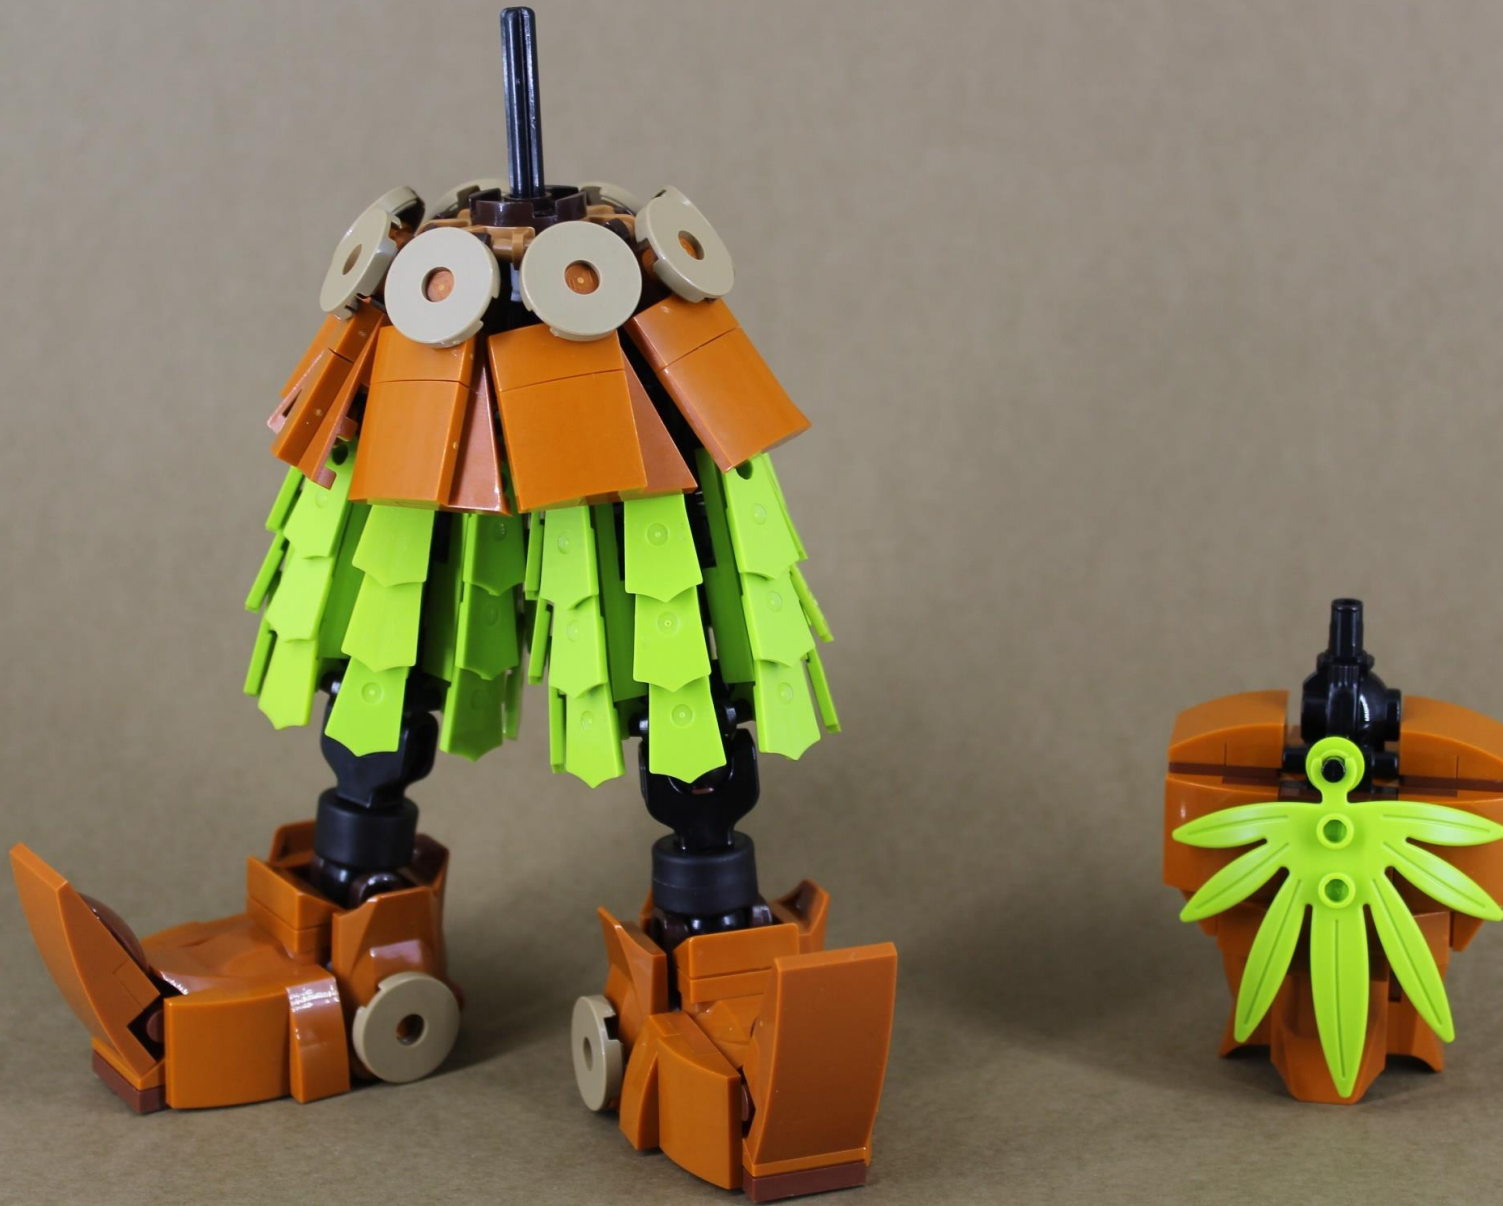

UPPER TORSO: COMPLETE

ATTACH UPPER TORSO TO LOWER TORSO

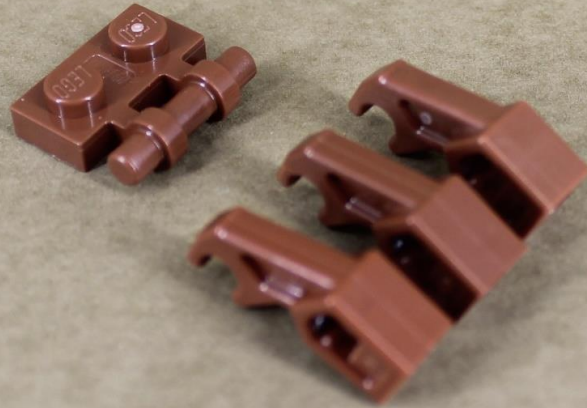

UPPER TORSO: ATTACHED

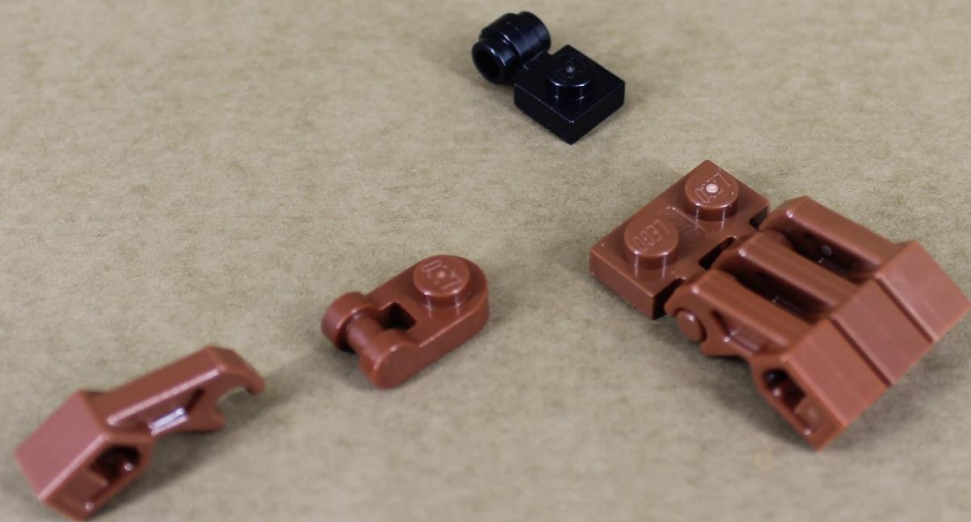

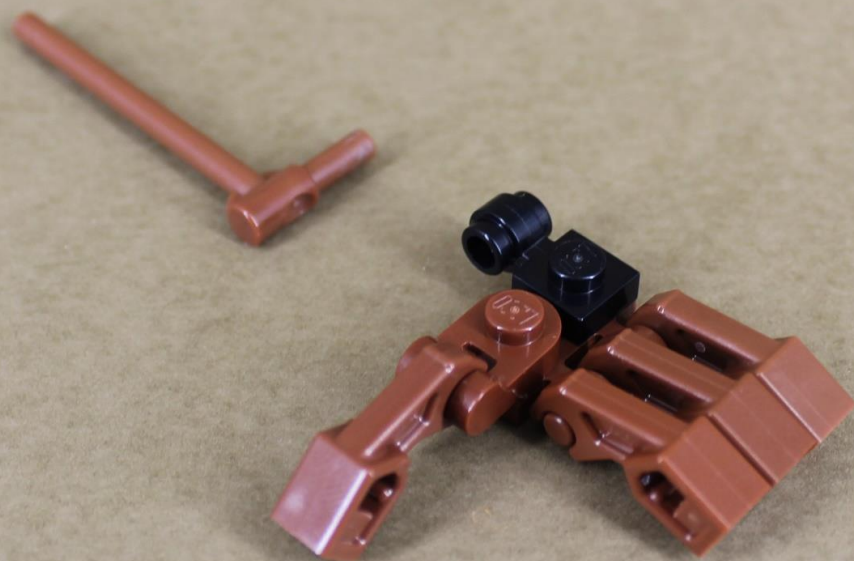

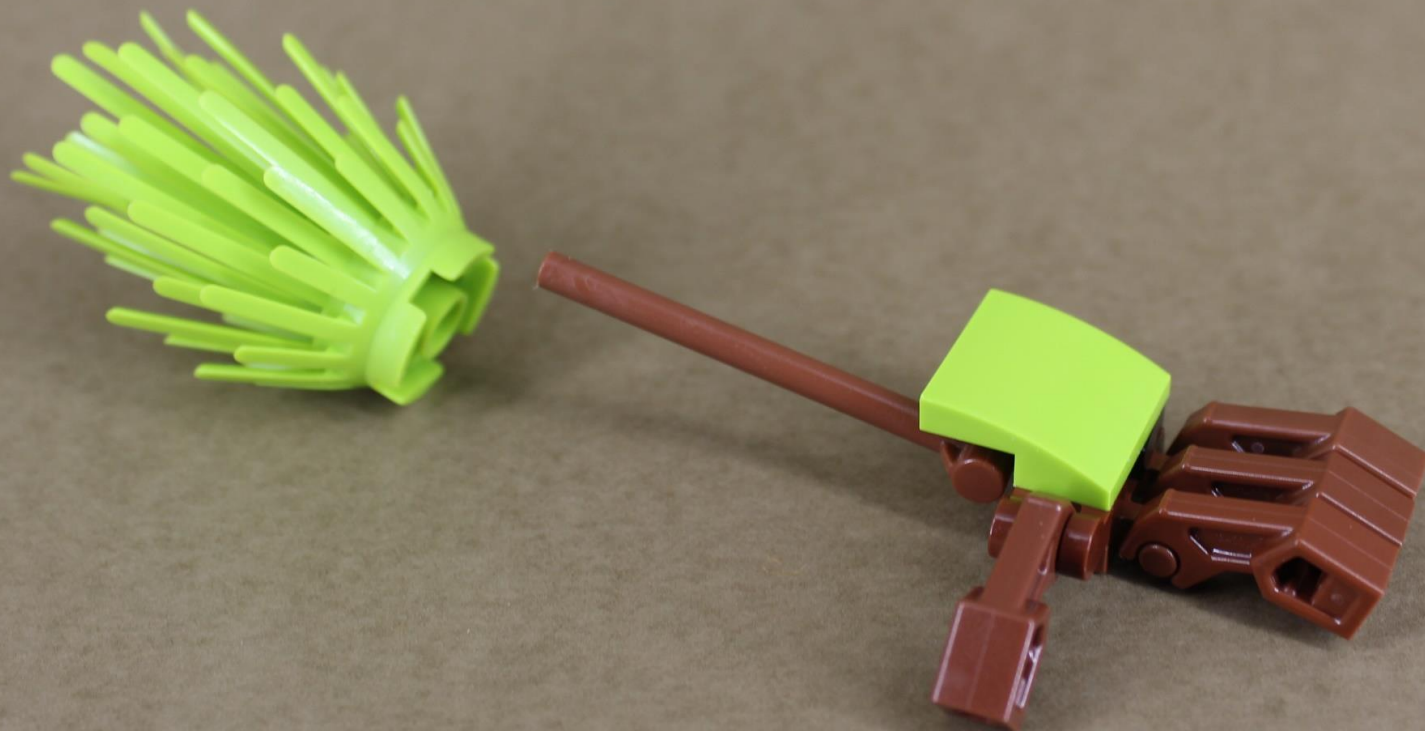

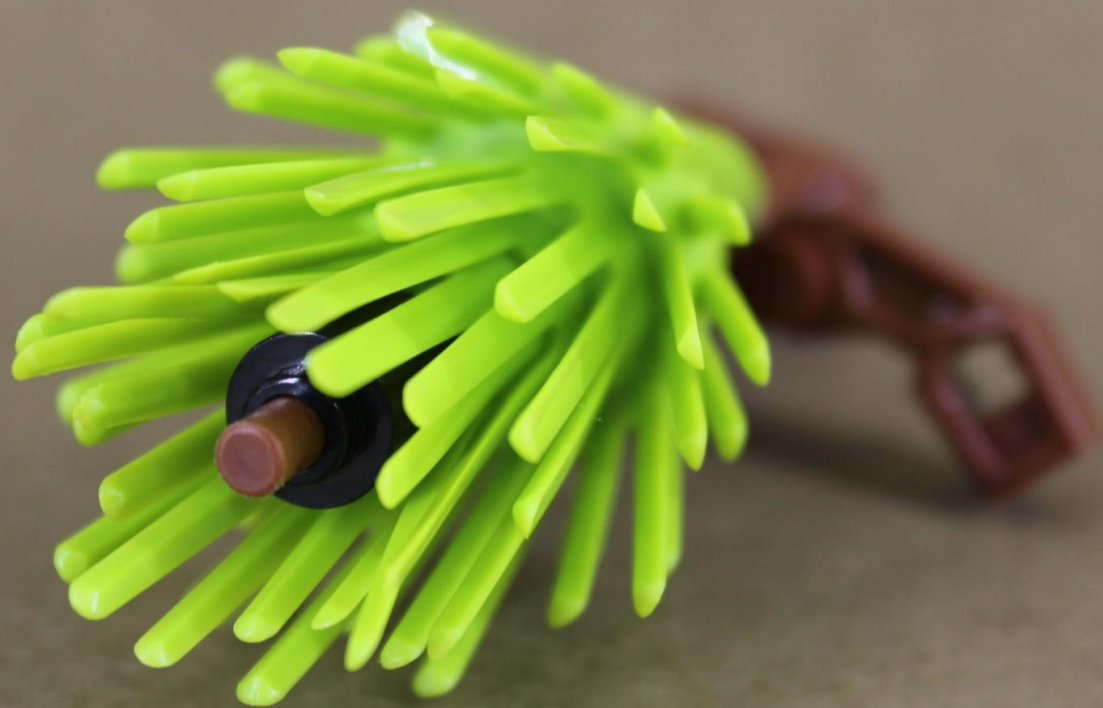

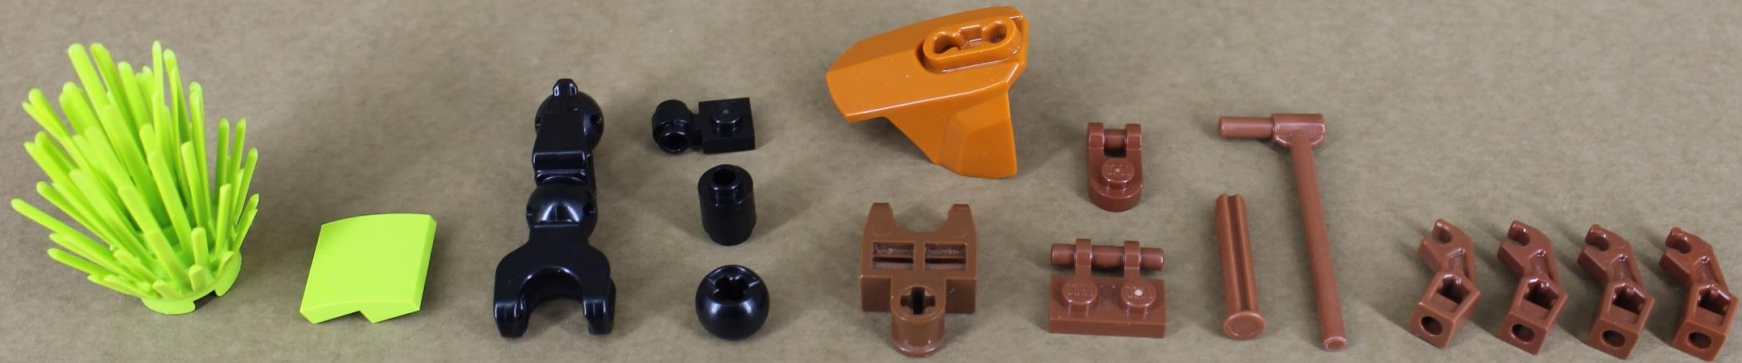

LEFT ARM: COMPLETE

RIGHT ARM: WHAT YOU NEED
